

ICDA Blockchain Conference, London, April 19-20, 2016

ICDA Blockchain Conference 2016

Beyond the technology buzz, how is the blockchain shaping the future of banks, exchanges, derivatives and commodities markets from a business development perspective?

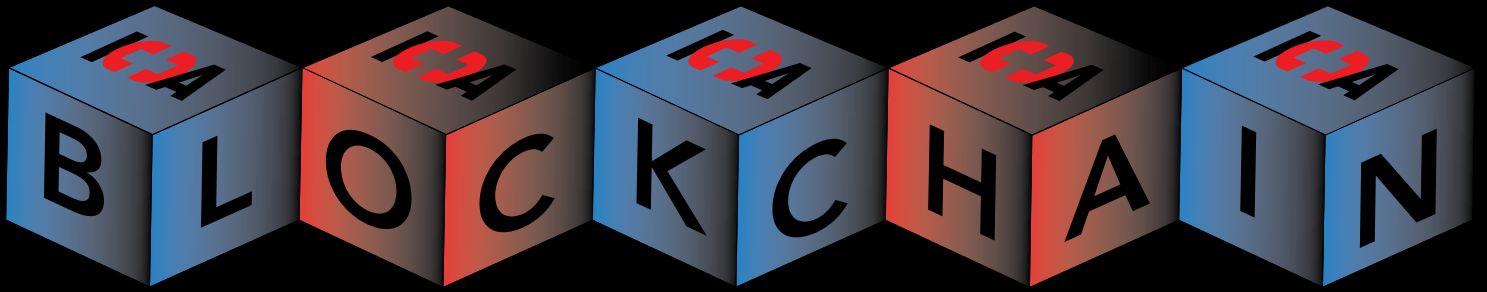

- Peter Randall, COO, SETL
- Garry Jones, CEO, LME & Management C'tee Member, HKEx
- Chris Skinner, Chairman, Financial Services Club
- Veronica Augustsson, CEO, Cinnober
- Mike Greenacre, CEO, Autilla
- Colin Platt, Co-Founder, DPactum
- Joanna Dove, Manager, Strategic Initiatives, CBOE Holdings
- Dan Day-Robinson, Chairman, ICDA
- Eric Benz, Co-founder & COO, Credits
- Johann Palychata, Product Manager, BNP Paribas
- Hirander Misra, Founder & CEO, GMEX Group
- Scott Riley, Director, Block Asset Technologies
- Henry Bonner, Managing Director, OpenLink
- Andrew Simpson, Head of Post-Trade, Euronext
- Fredrick Voss, Vice President, Blockchain Strategy, Nasdaq
- Ewout Huizingh, Project Manager, ABN Amro Clearing Bank
- Vincent Mercer, Consultant, Charles Russell Speechlys
- Pinar Emirdag, CEO, Complymatic
- Alex Powell, Capital Markets & Fintech Advisor
- Angus Scott, Director of Product Strategy & Innovation, Euroclear
- Anthony Kirby, Executive Director, Ernst & Young
- Nick Williamson, CEO & Co-founder, Pythia/Credits
- Guillaume Kendall, Head of Business Development, Kynetix
- Brian Donegan, Head of Operations, Fintech, IoM Gov't
- Richard Williamson, Founder & CEO, Generation 10
- Patrick Young, CEO, Exchange Invest
- Michael Mainelli, Chairman, Z/Yen
- Matthew Johnson, CTO, Guardtime

Banking Hall
Cornhill,
London EC3
April 19-20, 2016

Organised by:

ICDA Blockchain Conference, London, April 19-20, 2016

Agenda

Tuesday, April 19, 2016, Banking Hall, 14 Cornhill, City of London EC3V 3ND

This conference is not for techy geeks but looks at the blockchain from a business development perspective. Actually, the blockchain is now recognised as a disruptive force in its own right and is about much more than the cryptocurrencies it was first designed to support. Perhaps the most significant technological development since the advent of the internet, the blockchain will have a direct impact on the way in which banks, exchanges and derivatives markets operate in the future. The ICDA Blockchain Conference will explore how the particular qualities of this new technology will change the face of business for exchanges, banks, CCPs and the industry at large. What are the implications of efficiency step-changes, trustlessness, transparency, security and regulation and what are the opportunities for product development and new business? Who will be the winners and losers?

08.30 Welcome refreshments & registration

09.00 Welcome to the conference

- *Dan Day-Robinson, Chairman, International Commodities & Derivatives Association*
- *Patrick Young, CEO, Exchange Invest*

09.20 Keynote demonstration: a live demonstration of the prototype SETL blockchain, moving real-time central bank assets to allow banks to extinguish interbank liabilities and achieve settlement finality. It will also show the same structure using multi currency, multi asset including securities and enabling final settlement of these assets in 5 second blocks as well as modules demonstrating dividend and other corporate actions. This is an effective means of understanding distributed ledger technology for the uninitiated: and answering both the question what is the blockchain as well as showing how will it transform the industry and why?

- *Peter Randall, COO, SETL*

10.00 Panel: cutting out the middleman. Exploring the impact of decentralisation on industry players by segment

- *Veronica Augustsson, CEO, Cinnober*
- *Eric Benz, Co-founder & COO, Credits*
- *Hirander Misra, Founder & CEO, GMEX Group*
- *Moderator: Dan Day-Robinson, Chairman, ICDA*

10.45 Blockchain and bilateral trade. How the blockchain can help to revive OTC trading in the derivatives markets

- *Johann Palychata, Product Manager, BNP Paribas*

11.15 Refreshment break

11.45 Panel: Putting the genie back into the bottle: how is blockchain being managed from the perspective of (i) banks and (ii) CCPs and (iii) exchanges. Who are the winners and losers? Is there likely to be an identifiable victor?

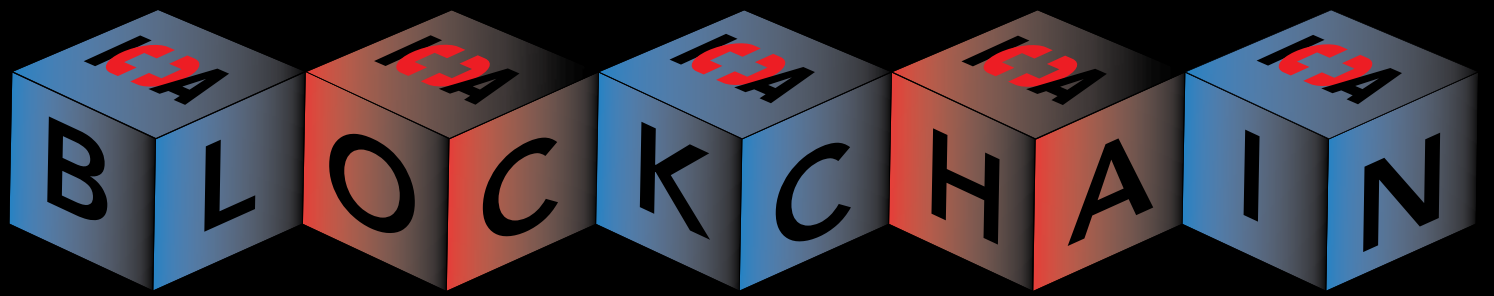

- *Angus Scott, Director of Product Strategy and Innovation, Euroclear*
- *Fredrick Voss, Vice President, Blockchain Strategy, Nasdaq*
- *Ewout Huizingh, Project Manager, ABN Amro Clearing Bank*
- *Moderator: Scott Riley, Director, Block Asset Technologies, Business Lead, Kynetix*

12.30 Smart contracts: execution imperatives in a blockchain context. How can we develop the distributed ledger to reduce contractual risks and disputes?

- *Alex Powell, Capital Markets & Fintech Advisor, Credits*

13.00 Lunch

ICDA Blockchain Conference, London, April 19-20, 2016

Tuesday, April 19, 2016, continued:

14.00 Central bank panel: how are central banks responding to blockchain challenges? What are the implications for monetary policy, regulation and compliance, taxation and security? Is the blockchain a help or a hindrance for regulators and what are the global issues arising from a borderless future?

- *Vincent Mercer, Consultant, Charles Russell Speechlys*
- *Pinar Emirdag, CEO, Complymatic*
- *Anthony Kirby, Executive Director, Regulatory and Risk Management, Ernst & Young*

14.45 Panel: Opening up new markets. How trustless technology will enable trade with unknown parties, benefit start-ups and serve to broaden business outlook. How do we match this technology with the needs of the real physical economy and financial markets imperatives?

- *Guillaume Kendall, Head of Business Development, Kynetix*
- *Brian Donegan, Head of Operations, Fintech & Digital Development, IoM Gov't*
- *Andrew Simpson, Head of Post-Trade, Euronext*
- *Joanna Dove, Manager, Strategic Initiatives, CBOE*
- *Moderator: Richard Williamson, Founder & CEO, Generation 10*

15.30 Refreshment break

16.00 Panel: singularity or plurality. Is blockchain deja vu one more time? Lessons from history. Why is co-operation important? How can banks/exchanges/clearing houses establish their real added value when the whole point may be to disintermediate?

- *Mike Greenacre, CEO, Autilla*
- *Garry Jones, CEO, LME & Member of the Management Committee, HKEx*
- *Colin Platt, Co-Founder, DPactum,*
- *Moderator: Patrick Young, CEO, Exchange Invest*

17.00 Cocktail Party

Wednesday, April 20, 2016, Banking Hall, 14 Cornhill, City of London EC3V 3ND

08.30 Arrival and refreshments

09.00 Welcome

09.05 Panel: identity, anonymity and the blockchain. How can we ensure the anonymity offered by the blockchain remains protected? Could it be inappropriate or injurious to certain kinds of transactions? Cyber risk and future security of the blockchain

- *Michael Mainelli, Chairman, Z/Yen*
- *Matthew Johnson, CTO, Guardtime*
- *Moderator: Bruce Tozer, Senior Consultant, G10*

10.00 Blockchain and the Internet of Things (IOT). What is the IOT? How can the distributed ledger support the IOT and the global commodities supply chain? Smart devices and other examples of practical applications

- *Henry Bonner, Managing Director, OpenLink*
- *Nick Williamson, CEO & Co-founder, Pythia/Credits*

10.30 Refreshment break

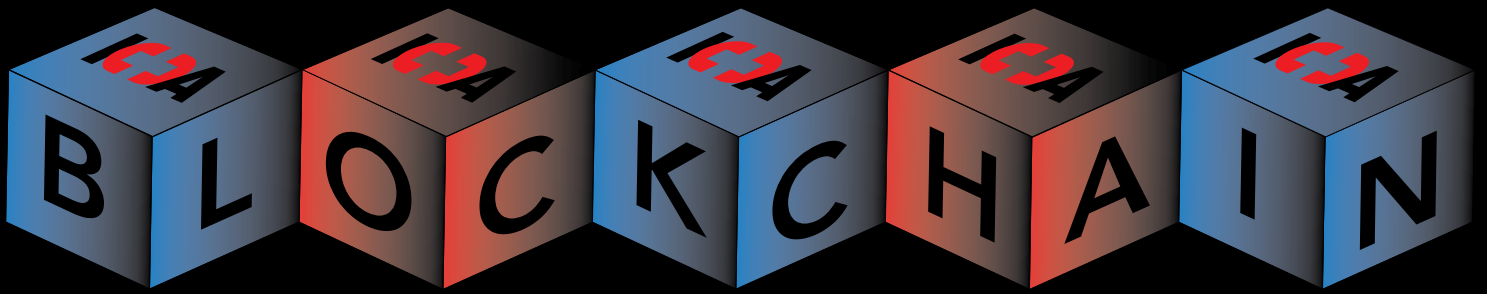

11.00 Company case studies: practical applications - which real world use-cases built on blockchain technology have already been established for equities and commodities?

- *Julian Eyre, Senior Sales Exec, GFT/Project Jupiter*
- *Colin Platt, Co-Founder, DPactum,*

12.00 Conference close

- *Chris Skinner, Chairman, Financial Services Club*

ICDA Blockchain Conference, London, April 19-20, 2016

How to register:

Scan and send this form to us at office@incoda.org or it's quicker and easier online at www.incoda.org or call us on +41 22 860 2103

Standard delegate rate £695
 ICDA members standard rate £300

Join ICDA and gain the members' rate now!

Please note: ICDA also now accepts individual members at a low fee - join us now and get back your registration costs for this event immediately
 Visit our website at www.incoda.org to find out more

PLEASE NOTE: If you are booking for someone else, then please provide your name and email address here, and then their details in the "Delegate details" section below. Thank you.

Your name

Your contact email

Organisation

Delegate details

Note: groups of 3 or more delegates are entitled to an additional group booking discount of 10% (does not apply to early registrations)

Please enter the details of your attendees here:

Delegate 1 - Name

Delegate 1 - Job Title

Delegate 1 - Email Address

Delegate 2 - Name

Delegate 2 - Job Title

Delegate 2 - Email Address
